

**LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery**

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
AIB-VINÇOTTE INTERNATIONAL S.A. Business Class Kantorenpark Jan Olieslagerslan , 35 1800 Vilvoorde Belgium	0026	1.1. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a fixed bed or support with manual feed of the workpiece or with a demountable power feed - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics  1.2. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a manually operated reciprocating saw-bench or carriage - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics  1.3. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a built-in mechanical feed device for the workpieces, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics  1.4. Circular saws (single- or multi-blade) - sawing machinery with movable blade(s) during cutting, having mechanical movement of the blade, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics  2. Hand-fed surface planing machinery for woodworking  3. Thicknessers for one-side dressing having a built-in mechanical feed device, with manual loading and/or	EC type-examination  Full quality assurance	Annex IX - Art. 12 (3) (b) and (4) (a)  Annex X - Art. 12 (3) (c) and (4) (b)

## LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
France		<p>or with a demountable power feed - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>1.2. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a manually operated reciprocating saw-bench or carriage - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>1.3. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a built-in mechanical feed device for the workpieces, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>1.4. Circular saws (single- or multi-blade) - sawing machinery with movable blade(s) during cutting, having mechanical movement of the blade, with manual loading and/or unloading - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>2. Hand-fed surface planing machinery for woodworking</p> <p>3. Thicknessers for one-side dressing having a built-in mechanical feed device, with manual loading and/or unloading for woodworking</p> <p>4.1. Band-saws with manual loading and/or unloading - sawing machinery with fixed blade(s) during cutting,</p>		

**LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery**

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
		<p>having a fixed or reciprocating-movement bed or support for the workpiece - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>4.2. Band-saws with manual loading and/or unloading - sawing machinery with blade(s) assembled on a carriage with reciprocating motion - for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics</p> <p>5. Combined machinery of the types referred to in points 1 to 4 and in point 7 for working with wood and material with similar physical characteristics</p> <p>6. Hand-fed tenoning machinery with several tool holders for woodworking</p> <p>7. Hand-fed vertical spindle moulding machinery for working with wood and material with similar physical characteristics</p> <p>17. Devices for the lifting of persons or of persons and goods involving a hazard of falling from a vertical height of more than three metres</p> <p>13. Manually loaded trucks for the collection of household refuse incorporating a compression mechanism</p>		
ISTITUTO DI CERTIFICAZIONE EUROPEA PRODOTTI INDUSTRIALI S.P.A. Via Paolo Bellizzi, 29/33 29100 - PIACENZA Italy	0066	1.1. Circular saws (single- or multi-blade) - sawing machinery with fixed blade(s) during cutting, having a fixed bed or support with manual feed of the workpiece or with a demountable power feed - for working with wood and material with similar physical characteristics or	EC type-examination Full quality assurance	Annex IX - Art. 12 (3) (b) and (4) (a) Annex X - Art. 12 (3) (c) and (4) (b)

## LIST OF BODIES NOTIFIED UNDER DIRECTIVE : 2006/42/EC - Machinery

Name and address of the notified bodies	Identification number	Responsible for the following products	Responsible for the following procedures or modules	Annexes or articles of the directives
		<p>1 to 4 and in point 7 for working with wood and material with similar physical characteristics</p> <p>6. Hand-fed tenoning machinery with several tool holders for woodworking</p> <p>7. Hand-fed vertical spindle moulding machinery for working with wood and material with similar physical characteristics</p> <p>8. Portable chainsaws for woodworking</p> <p>9. Presses, including press-brakes, for the cold working of metals, with manual loading and/or unloading, whose movable working parts may have a travel exceeding 6 mm and a speed exceeding 30 mm/s</p> <p>10. Injection or compression plastics-moulding machinery with manual loading or unloading</p> <p>11. Injection or compression rubber-moulding machinery with manual loading or unloading</p> <p>12.1. Machinery for underground working of the following type: locomotives and brake-vans</p> <p>12.2. Machinery for underground working of the following type: hydraulic-powered roof supports</p> <p>13. Manually loaded trucks for the collection of household refuse incorporating a compression mechanism</p> <p>14. Removable mechanical transmission devices including their guards</p> <p>15. Guards for removable mechanical transmission devices</p> <p>16. Vehicle servicing lifts</p>
